RE: Docket No. V-W-88-A0-1

Dear Mr. Sutfin:

Thank you for your December 21 letter. We appreciate the timely modifications to the above referenced Administrative Order which will enable us to provide more meaningful data in our subsequent reports.

Obviously your letter crossed in the mails with the December 22 letter from our consultants, Patterson Schafer Incorporated. In that letter Patterson Schafer points out that data for sample point 9 are no longer meaningful and proposes that monitoring this location be discontinued. This will be quite evident in our forthcoming PCR for the last quarter of 1988. Your further consideration of this point will be appreciated.

Very truly yours,

CERRO COPPER PRODUCTS CO.
